MY LORD,—I have the honour to transmit to you, for information and publication in the colony under your Government, copies of notes exchanged between the Minister for Foreign Affairs of the Republic of Costa Rica and the Secretary of State for Foreign Affairs respecting the denunciation of Articles V., VI., and VII. of the Treaty of Friendship, Commerce, and Navigation between Great Britain and the Republic of Costa Rica of the 27th November, 1849, together with a copy of an announcement made in the *London Gazette*.

Foreign Office, San José, 4th November, 1896.

MY LORD,—The Government of Costa Rica wish to conclude with those nations, with whom they entertain close and cordial relations, new treaties which may be more in harmony with the present interests and necessities of the country and of its commerce.

For this reason, and by instruction of the President of the Republic, I have the honour to inform your Lordship that I denounce, in the name of my Government, Articles V., VI., and VII. of the Treaty concluded between this Republic and Great Britain on the 27th day of November, 1849, and signed by the plenipotentiaries Don Joaquín Bernardo Calvo and Mr. Frederic Chatfield. This denunciation is made in accordance with the provisions of Article XV. of the same Treaty.

YOUR EXCELLENCY,—I have the honour to acknowledge the receipt on the 26th ultimo of your note of the 4th of November denouncing Articles V., VI., and VII. of the Treaty of Friendship, Commerce, and Navigation concluded between Great Britain and the Republic of Costa Rica on the 27th of November, 1849.

Her Majesty's Government note that this denunciation is made in conformity with the provisions of Article XV. of that Treaty. They therefore accept it, and have announced in the *London Gazette* that Articles V., VI., and VII. of the Treaty will cease and determine on the 26th of November, 1897.

Her Majesty's Government are happy to think that all the other Articles referring to Friendship, Commerce, and Navigation will, under the terms of the abovementioned Article, remain in force, and in order to strengthen the relations of amity, to which they attach much value, they will be prepared to negotiate alternative Articles in place of those now denounced.

They will therefore be glad to be informed of the nature of the alternative Articles which the Government of Costa Rica may desire to suggest.

There will be two brackets only on about fifty or fifty-one poles; there will be four brackets on about nine or ten poles.
- (8) Price, per strut, for strutting (to include providing and fitting all struts, fixing all bolts, fitting, and all other work in connection therewith. This price will include providing and fitting struts for extra poles). There will be about six struts required.
- (9) Price, per block, for base blocks for struts and poles, including bolts (only where directed by the inspecting officer). There will be about twelve base blocks required.

The Government do not guarantee that the above quantities are correct. They are given to enable tenderers to arrive at an approximate total tender cost of the whole work. If there should be a greater or lesser quantity of any of the above items, the contractor will be paid therefor at his schedule price, and he will have no claim against the Government in either case for any misstatement of quantities.

This contract will include the construction of a telegraph line with two (2) No. 8 galvanised iron wires on two (2) brackets for a distance of about two (2) miles forty (40) chains more or less, and the construction of a telegraph line with four (4) No. 8 galvanised iron wires on four (4) brackets for a distance of thirty-seven (37) chains more or less.

The Government reserve the right to deviate from the road if any such deviation should be found advisable; the work on any such deviation to be paid for at schedule rates.

General Conditions.

1. The words "Inspecting Officer" throughout these conditions and specification shall mean any officer appointed by the Postmaster-General to supervise the work.

2. The word "Contractor" throughout these conditions and specification shall mean all and any of the partners of a firm, or any single individual.

3. The wire insulators, insulator bolts, galvanised iron roofs, roof nails, lightning conductors, staples for lightning conductors, and bolts for struts will be supplied by the Government and delivered to the contractor in Brisbane. Any surplus material after the completion of the contract must be delivered by the contractor, free of charge, at Engelsburg Telegraph Office.

4. The whole of the works included in this contract must be completed and handed over to the Government within four (4) weeks of the notification of the acceptance of the tender; and should the completion of the works be delayed beyond that date, the contractor shall forfeit and pay to the Government, as and for liquidated and ascertained damages, the sum of five pounds sterling for every week or part of a week that shall elapse after such date until their completion, and the amount of such damages may be deducted by the Government from any money payable to the contractor under this contract.

5. Payment will be made monthly to the extent of seventy-five (75) per cent. on the value of the work reported to have been completed by the officer appointed to inspect the same; but, notwithstanding such report and payment on account, the Under Secretary and Superintendent of Telegraphs, or other officer appointed by him in that behalf, shall have full power at any time afterwards, before final payment shall be made, of rejecting and condemning any of the work or materials in respect of which such report and payments may have been made. Certificates must be produced from the Chairman of the Divisional Board through whose Division the line passes or has been taken, and from property owners if through or near the boundaries of private lands, that no claims are made by them under Clause 7, before final payment will be made. The total balance will be paid when the entire contract shall have been completed and all claims settled to the satisfaction of the Government.

6. The Government reserves to itself the right to make use of the line for the transmission of messages prior to final completion. Such use of the line not to prejudice in any way the power to subsequently reject or condemn any portion of the work or materials.

7. The contractor may avail himself of the facilities afforded by "The Post and Telegraph Act, 1891," for obtaining materials, on signing a bond indemnifying the Government against any claims for compensation arising from the action of the contractor: Provided always that it shall be lawful for the Under Secretary and Superintendent of Telegraphs, from moneys due to the contractor, if not otherwise settled, to satisfy any such claim he may see fit.

8. No action or suit shall be brought or maintained by the contractor or the Under Secretary and Superintendent of Telegraphs against the other of them to recover any money for or in respect of or arising out of this contract, or any breach thereof by the contractor or the Under Secretary and Superintendent of Telegraphs, or for or in respect of any other matter or thing arising out of this contract, unless and until the contractor or the Under Secretary and Superintendent of Telegraphs has obtained a certificate of the inspecting officer for the amount sued for, and then only for the amount so certified.

9. The contractor will have to provide, at his own cost, all labour, plant, tools, material (other than that mentioned in Clause 3 of these conditions), or whatever else may be required for the due performance of this contract.

10. The contractor will be responsible for all claims for compensation for damage to fences or other property caused by the erection of the line, also for damage so caused to roads; and if such claims are not defrayed, the Under Secretary and Superintendent of Telegraphs is authorised to pay the same from any moneys due to the contractor.

11. Should the contractor fail to proceed in the execution of, or to complete, the work in the manner and at the rate of progress required by the Postmaster-General, it shall be lawful for the Postmaster-General, by a notice in writing delivered to the contractor or his representative, or by a notice in the *Queensland Government Gazette*, to terminate the contract, as far as relates to the work remaining to be done, and to enforce the penalties for the non-fulfilment of the contract; and all sums of money which may be due to the contractor, together with all plant, materials, and implements in his possession on the ground, and all sums of money, whether named in the bond to be entered into by the contractor and his sureties, or otherwise, as penalties for the non-fulfilment of the contract, shall be forfeited to the Government, and the amount shall be considered as ascertained damages for breach of contract.

12. A deposit of a sum equal to ten (10) per cent. of the total tender cost of the whole work must accompany each Tender (without which Tenders will be informal), also a memorandum signed by the party tendering, and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the Tender being accepted, and undertaking in that event that they will severally execute and deliver at the Office of the Under Secretary and Superintendent of Telegraphs, in Brisbane, within ten (10) days from the date of the notification of the acceptance of the Tender, a bond to Her Majesty in a sum equal to twenty (20) per cent. on the amount of the Tender.

13. All workmen and employees engaged upon the works by the contractor shall be paid their full wages in lawful money, at least once in every month.

14. Such payments shall be made in some building or place convenient to the site of the works, but in no case shall such payments be made at any public-house or other place where liquors or refreshments are sold.

15. The contractor shall not sell or dispose of, or be in any way interested in the sale or disposal of, alcoholic liquors or other articles of consumption, to the workmen or employees engaged upon the works.

16. If the contractor sublets any portion of the works, all workmen and employees engaged thereon shall be paid by the sub-contractor at the times and under the conditions herein specified, but in the event of the sub-contractor failing to make any such payments then the contractor shall be liable to make the same.

17. Before the payment of any money to the contractor, the Postmaster-General may require from him satisfactory evidence that all the workmen and employees then and theretofore engaged upon the works have been paid their wages and other lawful claims of every kind in full, in lawful money, and to the latest date at which such wages and claims are due; and the Postmaster-General may withhold the payment of all moneys due or that may become due to the contractor, until he is satisfied that such wages and claims have been paid.

18. If the contractor fails or omits to pay to any workmen or employees engaged upon the works their full wages in cash once at least in every month, the Postmaster-General may, as often as the same shall happen, upon complaint of such failure or omission made, and upon evidence satisfactory to him of an order or judgment of a Court of Petty Sessions, or of any other court of competent jurisdiction, pay the amount mentioned in such order to such workmen or employees, and deduct the amounts so paid from any sum or sums which may be due or become due to the contractor.

19. Although the Under Secretary and Superintendent of Telegraphs or his officers may furnish any information in connection with this contract, any such information shall not relieve the contractor from any risk or from the fulfilment of his contract, nor will the fact of any such information being given entitle the contractor to make any claim for compensation.

20. The inspecting officer shall have the power to order the dismissal or removal of any foreman or workman employed by the contractor upon giving written notice to the contractor of his intention to do so; and if such foreman or workman is retained by the contractor after such notice has been given, then the inspecting officer shall have the power to delay the signing of any voucher or certificate for payment for any work done until such order has been obeyed.

21. The decision of the Government Electrical Engineer will be final in all matters of dispute between the contractors and the Government in regard to this contract.

22. The contractor must shift camp for the inspecting officer as required.

23. The Government does not bind itself to accept the lowest or any Tender.

Specification.

1. The course of the line to be marked out by the contractor, under the direction of the inspecting officer.

2. The clearing, where necessary, to be carried out in accordance with and in the manner specified in Clauses 3, 4, 5, and 6. Clearing is only to be done in such places as the inspecting officer may direct.

3. All trees, dead timber, and underwood standing within forty (40) feet on each side of the line to be felled; and all fallen timber, whether felled by the contractor or otherwise, within a radius of twenty (20) feet from each pole or strut, also for six (6) feet on each side of the fence or course of same, to be cleared away.

4. Any branches overhanging from trees beyond the distance mentioned, which, in the judgment of the inspecting officer, might endanger the line, to be removed. Every care must be taken not to damage fencing or any other property of any kind.

5. Trees outside the distance mentioned, which, in the judgment of the inspecting officer, might endanger the line, are to be felled.

6. All existing cleared roads which may become blocked by fallen timber must be cleared by the removal of the timber to the original width of such roadway. In cases where tracks may become blocked, all fallen timber must be removed, leaving a clear space of not less than twenty (20) feet in width, following the course of such track.

7. Poles to be straight saplings of the best description of narrow-leaved ironbark or other approved timber (the approval of any timber will rest with the Government), with the bark removed, not less than six (6) inches in the least diameter, clear of sapwood, at the small end, and not less than thirty-two (32) inches in circumference at five (5) feet from the butt, and not less than twenty-seven (27) feet in length; to be carefully and thoroughly charred from the butt upwards to one (1) foot above the ground, the charred portion to be well coated with hot coal tar. Extra-length poles to be three (3) inches greater in circumference at five (5) feet from the butt for each additional five (5) feet in length.

8. The top of each pole to be sawn off with a bevel of one (1) in one (1) on each side, so as to leave an equal slope on each side of the pole. Over the top thus formed a galvanised iron

roof is to be neatly nailed to the pole with four (4) two (2) inch clout nails, two nails on each side. The iron roof thus formed must project beyond the poles on all sides about two (2) inches.

9. Brackets to be fastened to the poles with three (3) inch coach screws. The sapwood must always be cut away to allow the base of the bracket to fit close to the pole.

The top bracket must be fixed nine (9) inches from the top of the pole, and on the right hand side looking to the "Up" station (Brisbane side); any further brackets are to be placed alternately on opposite sides of the poles, and spaced seven (7) inches apart. They must not be fixed opposite to each other (in the same horizontal plane), but carefully spaced as instructed above. At every angle where, in the event of a wire leaving an insulator, there is the possibility of an accident, however slight, an iron insulator pin must be used, and the wire fastened on the inside of the insulator. Brackets must always be at right angles to the line of wires.

10. Lightning conductors to be of No. 8 gauge galvanised iron wire, to be stretched straight from the top to the butt of each pole, and to be secured thereto with fourteen (14) staples of galvanised iron wire one and a-half (1½) inches in length. Staples bent in driving must be drawn and replaced by straight ones. The top of the conductor to be twisted once round a three (3) inch coach screw driven four (4) inches below the top of the pole, and then bent so that it will project not less than six (6) inches above the iron roof on the top of the pole; the other end of the conductor to be bent under the butt of the pole. If the poles exceed the specified length, the lightning conductors shall be proportionately longer, and an additional staple shall be driven for every two (2) feet additional length. Where poles are alongside roads, the staples to be driven at every foot from the ground to a height of eight (8) feet. Lightning conductors to be affixed to the poles midway between the brackets.

11. The poles to be not more than eighty-eight (88) yards apart, unless specially directed; to be sunk five (5) feet in the ground, placed in a perpendicular position, and well rammed with rubble and earth. Extra-length poles to be sunk any extra depth in ground that the inspecting officer may direct.

12. At angles and other places where required, struts are to be supplied and fitted. Struts are to be of approved timber (approval rests with the Government); to be about twenty-one (21) feet three (3) inches in length, sawn off square at the butt; to be not less than six (6) inches, clear of sapwood, in the least diameter at the small end, and not less than twenty-four (24) inches in circumference at the butt. Struts should not weaken the pole; therefore as little as possible of the timber of the pole inside the sapwood should be cut away at the joint. The small end of the strut is to be carefully and neatly scarfed to fit the pole at seventeen (17) feet from the ground level for a twenty-seven (27) foot pole. The joint must be neat and well fitting. A one-half (½) inch bolt is to be used to fasten the head of the strut to the pole. The inspecting officer will give instructions as to the angle at which the strut is to be placed against the pole.

13. Where the inspecting officer so directs, a block is to be securely fitted to the foot of the strut. The ground must be undercut to take the strut block, so that any pull may be against unmade ground. In the event of the inspecting officer so directing, a base block must also be fitted to such poles.

14. Dimensions of base blocks for these purposes to be three (3) feet in length by eight (8) inches in diameter; clear of sapwood. The block must be thoroughly charred before it is bolted to the pole. Any loose charcoal must be scraped off both strut, pole, and block before being bolted together. Blocks to be bolted to either struts or poles with half (½) inch bolts. Struts must be not less than three (3) feet in the ground.

15. Angle poles must have a slight batter or rake from the vertical at the top to allow for settling. This batter must on no account exceed twelve (12) inches. Care must be taken that the batter or rake is against the strain.

16. The insulator pins are to be fitted in the brackets.

17. The wire is to be stretched in accordance with instructions to be given by the inspecting officer.

18. All insulators must be perfectly clean when placed upon the insulator pins; and if the inspecting officer considers that the insulators require washing, the contractor must wash them before they are placed on the poles. Clean fresh water must always be used when washing is required.

19. All joints are to be of the pattern known as the "Britannia" joint. The ends of the line wire where joined are to be thoroughly cleaned with a file or emery cloth; the ends are then to be laid together and whipped round for two and a-half (2½) inches with No. 16 binding wire, which must also be thoroughly cleaned. The whole joint is then to be carefully soldered. Baker's soldering fluid, only, to be used as a flux. A supply will be provided by the Government.

20. The line wire is to be tied to the insulators with the binding wire supplied for that purpose and in the manner prescribed.

21. All material used in the construction of this work, or any part of it, must be of the best quality, and, together with the workmanship, is to be subject to the final approval or rejection of the Electrical Engineer, or any officer appointed by him to inspect the same.

Any further information, may be obtained on application at the Office of the Under Secretary and Superintendent of Telegraphs, Brisbane.

TO THE

Queensland Government Gazette

PUBLISHED BY AUTHORITY.

VOL. LXVII.]

SATURDAY, 13TH MARCH, 1897.

[No. 62.]

A PROCLAMATION.

By His Excellency The Right Honourable CHARLES WALLACE ALEXANDER NAPIER, Baron Lamington of Lamington, in the county of Lanark, in the Peerage of the United Kingdom, Knight Commander of the Most Distinguished Order of St. Michael and St. George, Governor and Commander-in-Chief of the Colony of Queensland and its Dependencies.

[L.S.]
LAMINGTON,
Governor.

WHEREAS by "The State Education Act of 1875" it is enacted that the Governor in Council may from time to time make Regulations for the due and effectual execution of the said Act, and the objects thereof, and other purposes therein mentioned, and that all such Regulations shall be proclaimed in the *Gazette*, and when so proclaimed shall have the force of law: Now, therefore, I, the Governor aforesaid, do, by virtue of the powers vested in me by the said recited Act, and by and with the advice of the Executive Council, hereby notify that the following Regulations have been made in accordance with the said Act, and are hereby proclaimed and promulgated for public information.

REGULATIONS OF THE DEPARTMENT OF PUBLIC INSTRUCTION IN QUEENSLAND.

GENERAL.

Interpretation.

1. In these Regulations the word "Minister" means the Secretary for Public Instruction, and the word "Department" means the Department of Public Instruction.

Regulations to be binding on all officers.

2. These Regulations shall commence and take effect from the 1st July, 1897, from which date all existing Regulations are hereby repealed.

Fines.

3. The Minister may at his discretion impose a fine of not more than five pounds on any teacher for violation of the Regulations, neglect of duty, or impropriety of conduct. The amount of the fine may be deducted from any money due to the teacher by the Department.

Parliamentary appropriation to precede expenditure.

4. No money shall be expended for the payment of the salaries of teachers or other officers, or for the establishment or maintenance of schools, or for additions, improvements, or repairs to schools, nor shall any teacher or other officer be entitled to make any claim for or in respect of any salary, allowance, or other emoluments, or any increase thereto, unless and until money has been appropriated by Parliament for such specific purposes.

ESTABLISHMENT AND MAINTENANCE OF SCHOOLS.

Mode of procedure.

5. When it is desired to establish a school in any locality a public meeting must be convened for the consideration of the matter, of which fourteen days' notice is to be given throughout the neighbourhood. At the meeting a school building committee is to be chosen for the purpose of communicating with the Minister, obtaining information, and collecting subscriptions.

Form of application.

6. Applications for the establishment of State and Provisional schools must be in the form, and contain the particulars, specified in Schedules I. (A) and I. (B) respectively.

Establishment of State schools.

7. State schools will not be established except—

- (a) Where sites, central, suitable, and of sufficient area, have been secured not too near to any other school already established or about to be established by the Department;
- (b) Where a permanent average daily attendance of not less than thirty children of school age (as defined in Regulation 100) is likely to be secured; and
- (c) Where a sum has been paid to the Minister, or placed to his credit in a bank, amounting to one-fifth of the estimated cost of erecting and furnishing such school buildings as are required, having regard to the number of children likely to attend the school.

Establishment of Provisional schools.

8. (a.) Under ordinary circumstances the Minister will not establish Provisional schools except in places distant at least four miles from any existing State or Provisional school by the nearest route practicable for children, and unless the average attendance of pupils is likely to reach twelve at the least.

(b.) A building provided by the local promoters at their own expense will be approved by the Minister for a Provisional school if it is suitable as regards situation, form, and size; if it is weatherproof, sufficiently lighted and furnished; and if there is detached closet accommodation for each sex. It should contain at least 294 square feet of flooring, the desks must be sufficient to accommodate at least two-thirds of the children, and there must be seats and hat-pegs for all. The school must be furnished with a blackboard (3 feet 6 inches x 2 feet 9 inches) and easel, a clock, a press for the reception of school books, a table, and a chair. The closets must be at least a chain from each other, and from the school.

(c.) Out of money voted by Parliament for the purpose, the Minister may contribute towards the cost of a Provisional school building, and of providing the required furniture, tanks, closets, and fencing on the following conditions:—

- (1) That the local promoters have first submitted their proposals to the Department with an estimate of the cost, and have applied for and obtained from the Minister a promise to contribute to the same;
- (2) That the amount so contributed by the Department shall be not more than one-half of the total cost, and not more than £50;
- (3) That the building shall be placed on Crown lands if a central and otherwise suitable site thereon can be obtained; or, if built on private land, that a right-of-way shall be secured, and the land required leased to the Secretary for Public Instruction for a term of years to be agreed upon, at a nominal rent, the Minister having the right to remove the building before or at the expiration of that term;

- (4) That the building shall be not less than 21 feet in length by 14 feet in width and 9 feet in height to the wall-plates, and shall have a pitched roof, two or more windows, and a boarded floor, a veranda 7 feet wide on one side, two closets at least a chain apart, and at least a chain from the school, a tank of a minimum capacity of 400 gallons, and the following articles of furniture, viz.—four desks each 7½ feet long, six forms each 7½ feet long, a blackboard (3 feet 6 inches x 2 feet 9 inches) and easel, a press (3 feet x 4 feet x 1½ feet), a table, a chair, and a clock; building and furniture to be in accordance with plans and specifications approved by the Minister;
- (5) That payment of the said contribution shall not be made until an inspector or other person authorised by the Minister has reported the building to be erected and furnished in accordance with the foregoing conditions, and that it is ready for occupation.

Provisional school may be closed.

9. A Provisional school may be closed if the average attendance falls below twelve, or if suitable accommodation for the teacher is not obtainable in the neighbourhood.

Local contributions.

10. In the case of State schools local contributions to the extent of one-fifth of the cost are required in respect of the following matters:—

Surveying, purchasing, and clearing the site.

Erecting school and teacher's residence, closets, playshed, and fencing; and providing furniture and tanks.

Additions and alterations rendered necessary by increased attendance.

Enlarging the teacher's residence.

Local contributions to the extent of at least one-half of the cost are required for:—

Gymnasium and gymnastic apparatus, school bells, tree planting, preparing the ground and furnishing guards to protect the plants, gravelling playgrounds, clearing playgrounds of weeds or of a second growth of timber, school cabinets for holding specimens of manufactures or natural objects, and book-cases for school libraries.

In no case will the Department supplement local contributions towards the cost of the foregoing unless the Minister's approval of the expenditure has first been obtained.

Repair of provisional schools.

11. Provisional schools must be kept in good repair by the parents of the pupils, and may be closed if this is not done, or if the accommodation or furniture is insufficient.

Destruction of property.

12. The parents of children who break slates or windows, or in any other way injure the school property, must pay for the damage done; and the Minister may direct the exclusion of such children from school privileges till payment is made.

Apparatus and books.

13. Books and other school material not furnished by the Department must be supplied by the parents.

Teachers not to compete with local tradesmen.

14. Teachers must not sell to their pupils copy-books, exercise-books, or other school material, which the pupils can conveniently obtain from local tradesmen, and they are forbidden in any case to sell such material at a profit.

Property not to be removed.

15. The school registers, records, books, apparatus, and materials for instruction supplied by the Department must not be removed from the school premises by teachers or by pupils.

USE OF SCHOOL BUILDINGS FOR OTHER THAN SCHOOL PURPOSES.

Applications to give religious instruction.

16. Applications from ministers of religion or other persons desirous of giving religious instruction to the children in the school buildings, out of school hours, must be made to the Minister, through the head teacher, in the form set forth in Schedule II., or to the like effect. A notice specifying the intention of the applicant to make such application must be affixed to the school door for one week prior to forwarding the application.

Applicants must be officiating ministers of religion, or be recommended by persons who so officiate.

Every reasonable facility will be afforded by the Minister to applicants, so far as is consistent with a due recognition of the claims of other persons who may also desire to give religious instruction.

Uses of school buildings.

17. School buildings, towards the cost of which the State has contributed, when not required for school purposes, may be used for any lawful purpose other than the holding of religious services, subject to the approval of the Minister and to the following conditions:—

- (1) The head teacher or person in charge of the school premises must receive timely intimation of any application for the use of the school buildings;
- (2) The proposed use must ordinarily be approved by the school committee, whose approval in writing should accompany the application. The Minister may, however, dispense with the approval of the committee;
- (3) Any damage to the buildings or school property shall be at once repaired by the persons using them, and the premises shall be cleaned at their expense before the next meeting of the school;
- (4) Any furniture or school apparatus which it may be necessary to move must be moved at the expense and risk of the person or persons using the room, and the same must be returned by such person or persons to its place at least one hour before the commencement of the next meeting of the school, but no fixtures must in any case be moved from their places without the consent of the Minister;
- (5) The Minister will not approve of any proposed use of a school building if it is likely to interfere with the work of the school, or to be injurious to the building or furniture; and any approval may be withdrawn by the Minister at any time.

SCHOOL BOARDS AND SCHOOL COMMITTEES.

School boards.

18. School boards will be appointed whenever the parents of one-third of the children attending three or more schools in the same district signify by a petition to the Governor in Council a desire that a board should be appointed. The Governor in Council may be guided by any recommendation made in the petition in regard to persons to be appointed as members of the board.

School committees.

19. A school committee may be appointed for any school for the purpose of advising and assisting the Minister in matters relating thereto. The Minister, however, while availing himself of this assistance, reserves to himself the power of controlling through his officers the professional management of the schools. In the case of State schools the committee shall ordinarily consist of not less than five members, of whom three shall form a quorum, but in the case of Provisional schools the committee need not include more than three members.

20. In appointing school committees the Minister will ordinarily be guided, in the case of new schools, by the recommendation of the subscribers to the building fund; and, in the case of schools already established, by the recommendation of a majority of the parents of the children attending the school.

At meetings held for the purpose of nominating the members of a school committee, the teacher of the school, whether a parent or not, is excluded from voting. He must take no part in the proceedings beyond explaining the purpose for which the meeting has been called.

Except at the first nomination of a school committee, the parents and guardians of children attending the school are the only persons entitled to vote. Voting by proxy is not allowed.

Any adult person, whether a parent or not, is eligible for appointment as a member of a school committee.

Retirement of committees.

21. On the last day of December, 1898, and on the same date in every third year thereafter, all school committees throughout the colony shall retire; and meetings of parents, called by the head teachers, shall be held at suitable times during the ensuing month for the purpose of nominating new committees. The members retiring shall be eligible for re-appointment, and shall hold office until their successors have been appointed by the Minister.

Officers of committees.

22. The school committee must choose one of their number to act as chairman, one to act as secretary and conduct correspondence with the Department, and one to act as treasurer to take charge of funds locally subscribed. Provided that the offices of chairman and secretary may be held by one and the same person.

Vacancies.

23. It is the duty of the secretary to inform the Minister of the death, removal from the district, or resignation of any member of committee, and to forward at the same time for the Minister's approval the name of a person whom a majority of the remaining members recommend as suitable to fill the vacancy. The Minister may, however, require a member to be nominated by a meeting of parents.

Neglect to attend committee meetings.

24. When a member of committee neglects to attend three duly summoned meetings of the same in succession, the secretary should notify the circumstances to the Minister, who may declare the seat of such member vacant, and appoint another person in his place.

Duties of committee.

25. The principal duties of a school committee are :—

- (1) To take care that the school buildings are not used for any unauthorised purpose ;
- (2) To observe and report upon the state of the school buildings and premises, and to supervise the execution of such improvements as the Minister may authorise them to carry out ;
- (3) To inspect periodically the school registers and records ;
- (4) To use their influence with parents to induce them to send their children regularly to school ;
- (5) To report the conduct of the teachers to the Minister when they are in fault, and to protect them from frivolous and vexatious complaints ;
- (6) To correspond with the Minister, through their secretary, on subjects connected with the school, and make suggestions that may be considered beneficial ;
- (7) To assist in supervising local examinations where assistance may be necessary.

TEACHERS.

Form of application for admission as teacher.

26. Candidates for admission into the service of the Department as teachers must make application to the Minister in the form Schedule III.

27. Teachers are not permitted to officiate as ministers of religion.

28. No person who is not a classified teacher will ordinarily be employed as a head teacher or as an assistant teacher in a State school.

*Classified Teachers.**Classification.*

29. There shall be three classes of classified teachers, and three divisions in each class.

30. The classification of teachers in the first instance will be based upon—

- (1) Their classification at the date of these Regulations ;
- (2) Their attainments as testified by examinations before examiners appointed by the Minister, and their skill in practical school management ; or
- (3) Their attainments as testified by the standards of the examinations which they have passed in the United Kingdom or elsewhere in the British Dominions, and their skill in practical school management.

Appointment at first on probation.

31. On their first admission into the service of the Department, all teachers will be appointed on probation, and will not be classified until an official report on their skill in practical school management has been received.

Promotion.

32. (A.) The conditions of promotion to a higher class are :—

- (1) That Parliament has appropriated money for any consequent increase of salary ;
- (2) That the teacher has passed the examination for admission into the higher class ;
- (3) That the teacher has been three years in the highest division of the third class before admission into the second class, and four years in the highest division of the second class before admission into the first class ; and that during those periods respectively—
 - (a) His work has been satisfactory ;
 - (b) He has shown skill in practical school management sufficient to warrant his admission into the higher class ; and
 - (c) His general conduct has been satisfactory.

(B.) The conditions of promotion to a higher division of a class are :—

- (1) That Parliament has appropriated money for any consequent increase in salary ;
- (2) That since the teacher's last promotion in classification a period of three years has elapsed, if he is in the third class, four years if he is in the second class, and five years if he is in the first class ; and that during those periods respectively—
 - (a) His work has been satisfactory ;
 - (b) He has shown skill in practical school management sufficient to warrant his admission into the higher division ; and
 - (c) His general conduct has been satisfactory.

33. The Minister will, at the end of every year, review the status of all classified teachers who are eligible for promotion to a higher grade ; and, to assist him in doing so, may appoint a board consisting of the Under Secretary, the General Inspector, and one district inspector selected for that duty from time to time.

34. No promotion will be made so as to pass over an intermediate class or a division of a class.

35. The Governor in Council may, for inefficiency, gross neglect of duty, or serious misconduct, reduce or cancel a teacher's classification ; and a teacher shall have no claim for compensation or damages on account of such reduction or cancellation of classification.

*Provisional School Teachers.**Appointment.*

36. Teachers of Provisional schools are appointed by the Minister.

Qualifications.

37. Candidates for employment as Provisional school teachers need not be classified teachers ; but they will be required, before appointment, to satisfy the Minister that they possess attainments sufficient for the position, and are free from any physical defect likely to impair their efficiency.

*Pupil-Teachers.**Classes.*

38. There shall be four classes of pupil-teachers besides pupil-teachers on probation, the first class to be the lowest.

Appointment.

39. All pupil-teachers will be appointed on probation till the annual examination of teachers next following the date of their appointment. Pupil-teachers so appointed must be not less than fourteen, nor more than seventeen years of age at the end of the year in which they are appointed. They must be of good character and free from any physical defect likely to impair their efficiency as teachers. The period of probation will not be regarded as part of the term of pupilage, and if their work is unsatisfactory during that period, or if they fail to pass the examination at the end of it, their services will not be retained.

Term of pupilage.

40. The term of pupilage shall ordinarily extend over four years ; but the Minister may in certain cases reduce it to three years by admitting as pupil-teachers of the second class, candidates who have passed the examination qualifying for that status, provided that they are not less than fifteen years of age.

Entrance limit.

41. No candidate for employment as pupil-teacher will be admitted to any class higher than the second.

Promotion.

42. Promotion to a higher class will be gained by good conduct, by passing the annual examination, and by showing satisfactory and improving skill in teaching.

Must pass each examination in order.

43. They must attend at each annual examination and pass the prescribed examinations in regular order. Those who fail in the examination for any class must present themselves for that examination again, if their services are retained.

Penalties of failure.

44. The services of a pupil-teacher who fails to pass an examination may be dispensed with, and those of a pupil-teacher who fails two years in succession will not be retained.

Quarterly certificates.

45. Pupil-teachers' certificates in a prescribed form must be furnished quarterly to the Department by the head teachers.

Liable to dismissal.

46. Pupil-teachers are liable to summary dismissal for immoral conduct, insubordination, disobedience, or gross neglect of duty.

Special classes.

47. Pupil-teachers may be required by the Minister to attend special classes for their instruction.

Termination of pupilage.

48. The services of pupil-teachers will cease at the end of their term of pupilage, and their further employment will depend on their qualifications and the requirements of the Department. Those that pass the examination at the end of their pupilage will be noted as eligible for appointment to Provisional schools if they apply for such an appointment.

*CLASSIFICATION AND STAFF OF SCHOOLS.**State Schools.**Classes of schools.*

49. There shall be eight classes of State schools, as follows :—

Class 1, with an average attendance of over 800 pupils.			
" 2,	"	"	601 to 800 " inclusive.

" 8,	"	"	30 to 40 " "

When and how determined.

50. Schools will be classified on the first day of January in each year on the average attendance during the preceding year.

Mode of determining average.

51. For the purpose of determining the classification of a school, the aggregate attendance for the preceding twelve months will be divided by the number of calendar school days remaining after deducting those on which the school was closed by proper authority.

Numerical strength of teaching staff.
52. Teaching staffs will be allotted on the following basis :—
To schools of Class 8—one teacher.

- " " " 7—not more than two teachers.

45 pupils in average attendance.
" " " 1—not more than one teacher for each

Subject to appropriation by Parliament of funds for the purpose, teachers in State schools whose emoluments on the 31st December, 1896, are in excess of those prescribed by Clauses 53 and 55 of these Regulations, in respect of the particulars therein referred to, shall continue to receive the same undiminished, until they are transferred for disciplinary reasons, or until by operation of these Regulations the emoluments attached to their positions become not less than those received by them on the date above mentioned, whereupon the obligation to maintain such payments shall cease.

Except as aforesaid the emoluments of teachers shall be as prescribed by Clauses 53 and 55 of these Regulations.

Instruction of pupil-teachers.

60. A fee at the rate of five pounds per annum for the period of instruction will be paid for every pupil-teacher trained in a school who passes the annual examination. If the pupil-teacher has been trained by one teacher only, assistant or otherwise, the whole amount of the fee will be paid to such teacher; if he has been trained by more than one, the fee will be divided amongst them in proportion to the amount of time each teacher has given to the work.

Allowances.

Increased cost of living.

61. An allowance may be made to teachers in remote parts of the colony, on account of the increased cost of living.

Postage.

62. An allowance at the rate of six shillings per annum, to defray cost of postage, will be made to the head teachers of all schools.

RESIGNATIONS, TRANSFERS, AND TRAVELLING EXPENSES.

Teachers' wives.

63. Appointments held by teachers' wives will terminate on the removal of their husbands.

Notice of resignation.

64. Teachers who wish to retire from the service shall not leave their duty until they have received intimation of the acceptance of their resignations. The Minister will not in ordinary cases approve of a resignation that does not reach the Department at least a month before the proposed date of leaving duty. Teachers who leave their duty before the acceptance of their resignations render themselves liable to the stigma of dismissal from the public service, and to the forfeiture of any salary that may have accrued.

Teachers' duties when leaving a school.

65. On leaving a school the head teacher must make out in triplicate an inventory of all the movable school property, on the forms furnished for that purpose. He should then forward to the office one copy duly certified by a member of the school committee, leaving the other two copies in the hands of the school committee. At the same time he must forward a certificate, signed by two members of the school committee, that the premises are left in a clean and habitable condition, without broken windows, and with the full complement of locks and keys in working order, or he must forward a satisfactory explanation why they are not so left.

66. If any teacher on his transfer to another school fails to furnish the certificate or explanation referred to in the preceding regulation, such cleaning and repairs as may be necessary will be done at his expense, and the cost of the same will be deducted from his salary.

When a head teacher is leaving the service his salary will not be paid in full until the inventory and the certificate or explanation specified above, as well as all other required returns, have reached the Department.

Teachers' duties when taking charge.

67. On taking charge of a school to which he has been appointed, the head teacher must at once examine the inventories left by his predecessor, and forward to the Department a report on the state of the school property, including premises, buildings, furniture, apparatus, records, and documents.

If not satisfied with the condition of the premises as to cleanliness and repair, he should point out the defects to the school committee.

New schools.

68. On taking charge of a new school, the head teacher must at once forward an inventory of the movable school property, and a report on the school property and premises.

Teachers desiring transfer.

69. A teacher desiring transfer should intimate his wishes to the Department in writing. In so doing he should explain fully why a transfer is desired, and indicate clearly the district, or alternative districts, to which he wishes to be transferred.

Removal of teachers.

70. Teachers may be transferred to any school in any part of the colony, according to the requirements of the public service.

Travelling expenses.

71. (i.) Teachers appointed or transferred will usually be allowed reasonable travelling expenses for the conveyance of themselves and their families.

(ii.) Travelling expenses will not be paid to a teacher transferred at his own request, unless the transfer is at the same time rendered necessary by the requirements of the Department.

(iii.) If possible, receipts should be forwarded with vouchers for travelling expenses, and all claims for travelling expenses incidental to the same transfer or appointment should be made at one time.

LEAVE OF ABSENCE.

72. In ordinary circumstances leave of absence with pay will not exceed three weeks in the year; and leave with pay will not usually be granted except on account of sickness.

73. Teachers and pupil-teachers must not absent themselves from duty without permission, unless the emergency is such that absence without leave is unavoidable.

74. On sufficient cause being shown, head teachers are authorised to grant their subordinates leave of absence for a period not exceeding one day; or, in cases of emergency, to excuse the lost time of a subordinate for a period not exceeding one day. They must report such absence and the reasons for it—by letter in the case of a full day, and in the monthly return in the case of a part of a day. Head teachers will be held responsible for the manner in which they exercise this authority.

75. Teachers and pupil-teachers who are absent from duty without leave must report the fact at once (or get someone to report for them), and ask for leave, furnishing particulars sufficient to allow the application to be decided on its merits. If leave is needed for more than three days on account of sickness, a medical certificate must be forwarded, which should state the nature of the illness. Head teachers must show how their schools can be carried on in their absence. Applications for leave from assistants and pupil-teachers must show a statement from the head teacher that their school work is arranged for in their absence.

With every application for leave of absence must be forwarded a statement, with dates, of the causes and extent of all absences from duty during the previous twelve months.

DUTIES AND AUTHORITY OF TEACHERS.**Prohibitions.**

76. Teachers are forbidden to take any office or to perform any work which may interfere with the proper discharge of their duties to the Department, or with the maintenance of amicable relations with their neighbours. In all cases they must obtain the sanction of the Minister before engaging in any paid work which is not part of their regular duty as teachers.

77. Teachers will be appointed, promoted, and removed on a due consideration of their claims and merits. They are prohibited from seeking the interest of influential persons outside the Department to obtain promotion, removal, or other advantage.

Head Teachers.**Care of property.**

78. Head teachers are held responsible for the condition and good order of the school buildings, grounds, and furniture, and of the books and other materials provided for instruction. They must make arrangements for the care of the buildings and premises in their absence.

79. They are required to report promptly any circumstance likely to prove injurious to the property in their charge. The first appearance of white ants in any part of the wood-work must be specially reported, and efforts must be made at once to check their progress. (See Appendix D.)

Use of school buildings.

80. Head teachers must satisfy themselves that authority from the Department for the use of the school buildings in their charge has been given, before they permit them to be used for any other than school purposes.

Cleaning.

81. They are required to keep the school buildings clean, and for this purpose will receive from the Department an allowance on the following scale:—

For Provisional schools	£2 per annum
For State schools of Class 8	4 "
" " " 7	6 "
" " " 6	8 "
For State schools with attendance above 160 the actual expenses will be allowed, but the rate of payment must be approved by the Minister.			

82. In consideration of the above allowances head teachers are required—

To have all the school rooms, passages, and verandas swept, and the furniture dusted each day that the school is open;

To have all the school-room floors, desks, forms, and closet seats and floors well scrubbed and washed with soap and water once in each quarter;

To have windows and fanlights washed with soap and water once in each quarter;

To have the walls and roofs kept free from cobwebs, and the playground free from papers and litter;

To provide soap and towels, tin basins and water cans, for the use of the pupils, and dusters for use in school;

To provide tin drinking cups and a bucket for the use of the pupils.

Offices.

83. Head teachers are held specially responsible for the cleanliness and proper state of the school closets. They must exercise a close supervision over the children to see that they conduct themselves in a cleanly and becoming manner, and, by daily inspection, they must keep themselves informed about the condition of the offices.

84. Unless specially instructed to the contrary, head teachers of State schools are authorised to incur the necessary expenditure to have the cesspits and urinals cleaned out at intervals as may be required, without awaiting specific instructions from the officers of the Department. They are required to use this power with discretion, and to see that the work is done properly and at a reasonable price.

Public notifications in school.

85. The head teacher must keep the following documents constantly suspended on the walls of his school, viz.:—

Notice to visitors;

Time-tables (including time-table of pupil-teachers' lessons, if pupil-teachers are employed);

Names of members of school board or school committee;

Copy of Part III. of the "The State Education Act of 1875."

Visitors.

86. The head teacher of every school maintained by, or receiving aid from, the Department is required to receive courteously visitors seeking to inspect the school, to afford them access to the school-room, and liberty to observe the books in the hands of the children or on the desks, the notices suspended on the walls, and the methods of instruction.

Visitors must not interrupt the business of the school by calling for papers, or otherwise diverting the attention of the teachers or children from their work; nor may they, unless invited by the head teacher, examine the classes or ask questions of the children.

The head teacher is required to have on his table a visitors' book, in which visitors may enter their names and make remarks. These remarks must not be erased or altered by the teacher.

Records and returns.

87. Head teachers are responsible for the proper keeping of the school records and the punctual preparation and despatch of the returns prescribed by the Minister. Any teacher guilty of negligence in compiling or forwarding returns, or in keeping school records, is liable to a fine; and any teacher guilty of fraudulently making false entries in any record or return is liable to be dismissed.

88. Head teachers are expected to give their assistants and senior pupil-teachers an insight into the keeping of the records and the filling up of the returns.

Committee.

89. Head teachers are to facilitate the work of the school committee, and they must, if required, submit the school records for their inspection and examination.

General management.

90. Head teachers are held responsible for the general management of their schools. They are to require a punctual and effective discharge of duty from their assistants, and must promptly report misconduct, incompetence, or insubordination on the part of any member of their staffs.

Subordinate teachers.

91. Head teachers may, at their discretion, require their assistants and pupil-teachers to perform necessary school work either before or after the ordinary school hours.

Pupil-teachers.

92. Head teachers are required to give special attention to the training of their pupil-teachers in the instruction and management of a class.

93. They are also required, as part of their duties, to devote one hour and a-half of each school day to the special instruction of their pupil-teachers. Of this time not less than half must be before the regular school hours in the morning, and no part is to be during the mid-day recess. With the approval of the Minister, they may intrust the special instruction of their pupil-teachers either wholly or in part to an assistant or assistants, but such transfer of their duty shall not relieve them from responsibility for the progress of the pupil-teachers in their studies.

94. The Minister may grant permission to two or more head teachers in town schools to unite their classes of pupil-teachers for the purposes of instruction, or he may require such classes to be taught together, and prescribe the necessary arrangements.

Responsible for progress and good behaviour of pupils.

95. Head teachers are held responsible for the progress and good behaviour of their pupils while at school. They are to make arrangements for the effective supervision of the pupils during recesses, and may require the members of their staffs to assume duty by turns for this purpose. In common with teachers of all ranks they are to impress on the pupils the principles of morality; to encourage and, if necessary, enforce personal neatness and cleanliness; and to train the children to habits of modest, orderly, and courteous behaviour, not only on the school premises, and on their way to and from school, but at all times.

Detention of pupils.

96. Pupils may be detained after school hours as a punishment for disobedience, misconduct, and wilful neglect to prepare home tasks, but no detention is permitted during the forenoon intermission. Detention during mid-day recess must not exceed half-an-hour, and the whole time of detention in any one day must not exceed one hour, or be prolonged more than half-an-hour beyond the usual hour of closing school.

Corporal punishment.

97. Head teachers are authorised to administer corporal punishment in their schools. It is not, however, to be inflicted for trivial breaches of school discipline, but may be employed for offences against morality, for gross impertinence, and for wilful and persistent disobedience, and for these only as a last resource. All degrading and injurious modes of punishment are strictly prohibited.

A head teacher may, with the approval of the Minister, delegate this power to an assistant, but he will still be held responsible for the nature and extent of the punishment inflicted.

In every case where corporal punishment is inflicted the full particulars must be recorded at the time in a register kept for that purpose.

Pupil-teachers in all cases, and assistants other than those authorised by the head teacher with the Minister's approval, are strictly forbidden to inflict corporal punishment.

Charges before a magistrate.

98. Any teacher against whom a charge is laid before a magistrate must immediately inform the Minister of the facts.

Suspension from attendance.

99. Pupils are not to be expelled from school without the express sanction of the Minister, but, pending his decision, a head teacher may suspend a child from attendance for—

- (1) Want of cleanliness;
- (2) Liability to communicate any infectious or contagious disease;
- (3) Gross misconduct; or
- (4) Incurable disobedience.

Such suspension, and the grounds for it, must be reported to the Minister at once, and notified to the parent or guardian of the child excluded, who has the right of appeal to the Minister.

Pupils suffering from infectious disease, or who belong to homes in which there is infectious disease, must be excluded from school till all danger of their conveying infection has ceased.

Teachers in whose homes there is infectious disease must isolate themselves from the sick persons, if possible, and continue duty.

To report children not educated.

100. Head teachers are required to ascertain as fully and accurately as possible the names and circumstances of all children in their neighbourhood who are of school age, are not attending school, are not educated up to the "standard," and whose education appears to be neglected.

Children of school age are those who have attained the age of five and have not reached the age of fifteen years.

"Standard" of education.

101. Children shall be regarded as educated up to the "standard" if their attainments in reading, writing, and arithmetic are sufficient for their admission into the Fifth Class.

Teaching of needlework.

102. In mixed State schools in which there is no female assistant, the head teacher's wife is required to teach needlework to the girls, according to the programme set down in Schedule V., for two hours weekly, and these hours must be entered in the time-table. She will be considered a paid member of the school staff, and the teacher's salary will be deemed to include remuneration for her services. She may, however, at her own request, be excused from such duty, provided that the salary otherwise payable to the head teacher shall be reduced by £10 per annum. A deduction of equal amount may be made from the salaries of unmarried male teachers in charge of mixed State schools.

Assistants and Pupil-Teachers.

Assistants.

103. Assistant teacher shall take such part in the work of the school as the head teacher, subject to the Regulations, may direct.

Pupil-teachers.

104. Pupil-teachers must teach during the ordinary school hours, and do such other work as the head teacher, subject to the Regulations, may require of them. They must attend punctually and regularly the classes for their instruction, and prepare such home tasks and written exercises as the head teacher may direct.

GENERAL ROUTINE AND INSTRUCTION.

105. Schools may be established or carried on for the instruction of infants only, boys only, girls only, girls and infants, or for boys, girls, and infants.

The minimum age for admission into any school shall be five years.

1. **Arithmetic.**—The mensuration for Fifth and Sixth Classes is covered by Longmans' "Junior School Mensuration." Miscellaneous problems in arithmetic and mensuration should not be difficult and involved; but they should be varied in their structure and requirements, so as to give practice in correct and expert working, and to show how the rules may be practically applied.

2. **Home Exercises.**—Classes above the Second are required to exhibit home exercises on paper, each exercise bearing a date, and showing mechanical and intellectual work proportioned to the status of the class.

Home tasks, oral or written, other than memory work, should not require answers to questions on principles or methods which have not previously in school been fully explained to and practised by the pupils.

3. **Object Lessons.**—For object lessons the following classes may be combined, except in mechanics, viz.:—First with Second, Third with Fourth, and Fifth with Sixth. In mixed schools the girls in the Fifth and Sixth Classes may take Mechanics with the boys in lieu of Domestic Economy.

Lessons in first aid in accidents and lessons in conduct and manners are to be taught collectively, as many classes being grouped together as can be conveniently combined for the purpose.

In farming districts prominence is to be given to lessons in agriculture and in mining districts to lessons in geology.

4. **Mechanics.**—In boys' schools or mixed schools, where the Sixth Class contains less than ten pupils, that class and the Fifth may be combined for instruction in mechanics, and shall work through stages I., II., and III. of the prescribed text-book in regular order.

5. **Drawing.**—In teaching drawing on slates, the pencils should be not less than four inches long; and the ruler to be used in the early stages should be not more than six inches long.

6. **Needlework.**—The pupils in all classes must be taught from the very beginning to fix their own work, as far as possible, both in samplers and garments. The subject must be taught by collective lessons, illustrated by paper folding, blackboard sketches, enlarged specimens, and diagrams. The garments made by the Third and Fourth Classes, when not cut out by the makers, should as a rule be cut out by girls in the Fifth and Sixth Classes, so that they may have practice in that work.

The examination for Class II. may be passed by instalments in two or more successive years. Exclusive of reading, drill, and class teaching, the subjects prescribed may be attempted in sections of not less than three subjects at any one examination, unless the number of subjects remaining to be attempted be less than three, in which case such number shall form one section. The attainments in reading, drill, and class teaching will be tested by the Inspector when visiting the schools, on candidates intimating to him their wish to be examined in all or any of these subjects. In each of the subjects of examination, the gaining of 50 per cent. of the maximum number of marks assigned will constitute a pass in such subject. Candidates will in each year be credited with the passes which they obtain, and will be considered to have qualified themselves by examination for admission as Teacher Class II., when they have passed in all the subjects of examination for that status.

Examinees who have already taken Latin as an alternative subject to Mathematics, may do so in this examination, the requirements being as laid down in the Regulations of 1885.

None of the worked papers of candidates for Class II. who do not attempt all the papers they elect to take will be valued. The omission of ornamental printing as required by the Schedule will vitiate the examination, and render it necessary for the candidate to come up for that subject again.

MONDAY, 15TH MARCH, 1897.

[No. 64.]

QUEENSLAND LAND FORCES.
HEAD-QUARTERS' GENERAL ORDER.
By Colonel HOWEL GUNTER, Commandant.
Brisbane, 13th March, 1897.
No. 48.

IN order that early preparations may be made for the forthcoming Encampment (12th to 19th April, inclusive) at Lytton, it is notified, for general information, as under:—

Special attention is directed to G.S.O., Appendix XIII., Instructions for Encampments. *Officers and non-commissioned officers should immediately study the orders laid down therein.*

Transport.

2. The rail and other arrangements for the transport to and from the Camps of the several Corps will shortly be published in the form of tables.

Baggage regulations.

3. (a.) Officers Commanding Corps must provide a sufficient number of sacks to carry the men's baggage, and a baggage guard, under a non-commissioned officer, must be placed in charge of the same during transit to and from Camp.

For transport to Lytton the baggage of Corps stationed at Brisbane will be deposited in their respective drill-sheds, ready for loading up at noon on the 11th April.

At other stations, Commanding Officers will make their own arrangements. The exact details of the transport of baggage are given in table below.

The D.A.A.G. will make all necessary arrangements for the transport of baggage to and from all drill-sheds, railway stations, steamers, and wharves in the Brisbane District, both going to and from Lytton, and detail officers to superintend loading and unloading of same.

Carts should be in attendance at the drill-sheds at least one hour before the appointed hour on day of departure of the Regiment or Corps, and at railway stations at least a quarter of an hour before the hour of arrival of trains. Hours of departure will be notified hereafter.

No claim will be entertained for the transport of officers' luggage except from drill-sheds as published. For return from Lytton, instructions as to the baggage will be issued to Corps later on.

Messes.

4 Officers and Non-commissioned Officers' Messes will be established as under:—

Officers—

1. Head-Quarters' Mess.
2. Artillery, Mounted Infantry, Engineers, Medical Staff, and Departmental.
3. Infantry, 1st and 2nd Regiments.
4. Volunteers.

Special arrangements will be made for Cadet Officers on arrival in Camp.

Non-commissioned Officers—

1. Permanent Staff.
2. Artillery, Mounted Infantry, Engineers, Ambulance Corps, and Departmental.
3. Infantry, 1st and 2nd Regiments, and Head-Quarters' Band.
4. Volunteers.

Commanding officers will at once arrange for the appointment of committees to organise and establish the above messes.

Canteens.

5. One general Canteen will be established in Camp, under the general direction of an officer to be appointed for the purpose.

Mess committees of officers' and sergeants' messes should prepare, as soon as possible, lists of the articles they would wish kept in the Canteen for their use, with quantities of the same.

These lists to be forwarded to the Officer Commanding "A" Battery, Lytton Camp.

Press.

6. Should any Press correspondents desire to remain in Camp they are requested to obtain permission, in writing, from the Chief Secretary, and to notify the A.A.G. accordingly. They will be provided with tents in the same proportion as Company Officers, viz., one tent to every three.

Staff and distribution.

7. The Camp will be laid out by the Acting Engineer Staff Officer. Details of the Staff and distribution of troops in Camp will be published later on.

8. All Corps in the Southern Military District will be required to pitch their own tents immediately on arrival in Camp. Commanding Officers are responsible that all ranks under their respective commands are acquainted with the duties.

Men's kit.

9. As to kit, &c., Commanding Officers must take care that all those under their command are well acquainted that each man coming to Camp is to provide himself with the following articles:—Blanket, knife, fork, spoon, pannikin, tin plate, extra pair of trousers, extra shirt, extra pair of socks, extra pair of boots, pocket-knife, towel, overcoat (optional), comb, clothes-brush, needle and thread, and a few buttons. The whole to be neatly rolled up and addressed with name and number of Company, and packed in sacks provided for the purpose. It is most important that each man should have at least one complete change of clothing with him, including boots.

Officers Commanding Corps will impress on those under their command the necessity of having stout and serviceable boots, without which discomfort is likely to be felt.

Pay and allowances.

10. Commanding Officers will at once inform all ranks under their respective commands that pay and allowances will be issued on the last day of the Camp; and that rations and forage will be issued free to all who attend the Camp.

Commanding Officers of Corps should bring cash-books and cheque-books to Camp.

The instructions laid down in paragraph 51A, Appendix XIII., S.G.O., will be strictly adhered to.

Duties and training in camp.

11. Duties in Camp, and details of training which will be carried out, will be published later on in a separate Order.

A.D. 1897.

An Act to make provision for the Enforcement in certain cases within the Australasian Colonies, or some of them, of Orders of the Supreme Courts of such Colonies for the Production of Testamentary Instruments.

[1 February, 1897.]

Preamble.

WHEREAS the Legislatures of Tasmania, Western Australia, Victoria, and Queensland have, pursuant to the provisions of "*The Federal Council of Australasia Act, 1885*," referred to the Federal Council the matter of the enforcement by the Supreme Court of one Colony of any process of the Supreme Court of another Colony directed to compelling the production in such last-mentioned Court of any unproved will or testamentary document in the possession of any person resident in such first-mentioned Colony when such will or testamentary document devises or bequeaths property situated in the Colony from the Supreme Court whereof the process issues, and is required for the purpose of obtaining probate of such will or testamentary document or registering the same in such last-mentioned Colony:

And whereas it is desirable that the enforcement of such process should be authorised in manner hereinafter provided:

Be it therefore enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Federal Council of Australasia, assembled at Hobart, in the Colony of Tasmania, and by the authority of the same, as follows:—

Short title.

Interpretation.

1. This Act may be cited as "*The Australasian Testamentary Process Act, 1897*."

2. In this Act—

The expression "testamentary instrument" means any paper or writing being or purporting or alleged to be testamentary; and

The word "order" includes any subpoena or other process requiring any person to produce or bring in any testamentary instrument.

Enforcement of
testamentary
process of any
Colony by the
Supreme Court
of any other
Colony.

3. Subject to the provisions of this Act, when a person required to produce any testamentary instrument or to bring the same into the Registry or other proper office of the Supreme Court of any Colony to which the provisions of this Act extend is or is believed to be in any other such Colony, a Judge or other officer of such Court who, if such person were within his jurisdiction, would have authority to issue an order requiring such person to produce and bring in such testamentary instrument, may issue such an order, and a Judge or other proper officer of the Supreme Court in any other such Colony, having similar jurisdiction in such other colony, may, if he think it, endorse the order with his signature. And the person required to produce and bring in such testamentary instrument on service in such other Colony of the order so endorsed shall produce and bring the same into the Registry or other proper office of the Supreme Court of such other Colony, and in default shall be liable in the Colony in which he is served to the like process of contempt as he would have been subject to if he had been a party to a suit or action in the Supreme Court of such Colony, and had been ordered by the Judge or other proper officer of such Court to do the act by the order so endorsed, required, or enjoined to be done.

Cases in which
process may be
so enforced.

4. No order shall be endorsed in pursuance of the provisions of this Act unless the Court to which application for such endorsement is made has reason to believe that such testamentary instrument devises or bequeaths property situated in the Colony in which such order was issued, and is required for the purpose of obtaining probate thereof, or registering the same in such last-mentioned Colony, proof whereof may be made by affidavit filed in the Court to which such application is made.

And no such order shall be so endorsed upon any application made after the lapse of twelve months from the date of such order unless the delay in applying for such endorsement shall be explained to the satisfaction of the Judge or other proper officer to whom such application is made.

Preliminaries to
enforcement of
order.

5. No proceeding shall be taken to enforce any such order under the provisions of this Act unless an affidavit is first filed in the Court in which such proceedings are intended to be taken, stating that the act required or enjoined to be done remains undone.

Person by whom
affidavits are to
made.

6. Every affidavit filed in pursuance of the provisions of this Act shall be made by the person at whose instance the order was made, or by some other person cognisant of the facts of the case, and shall be sworn before a Commissioner of the Court in which the affidavit is to be filed.

Control of Court
over proceedings.

7. MEETINGS AND PROCEEDINGS.

Meetings.

3. Meetings of the Board are of two kinds—ordinary and special. Ordinary meetings are held at the office of the Board every eight weeks, on Mondays. A special meeting may be called on the requisition of two members at any time in the manner prescribed by the 130th section of the Act.

Minutes of proceedings—rough entries.

4. (a) In addition to the minute-book prescribed to be kept by the 133rd section of the Act, a rough minute shall be kept in which every item of business transacted by the Board at a meeting shall be then and there entered by the clerk, and subsequently re-entered by him in the manner prescribed by the Act.

Records to be verified.

(b) Before reading the minutes at a meeting the clerk shall hand the rough minute-book to the chairman in order that while the minutes are being read he may verify the record before signing the same on confirmation by the Board.

Committee records.

(c) Resolutions of committees of the whole shall be transcribed into the minute-book of the Board, but the full text of reports from all other committees shall, when adopted by the Board, be entered in a committee minute-book.

Minutes of special meetings.

(d) The minutes of a special meeting must be confirmed at the next subsequent ordinary meeting.

Order of business.

5. The order of business at all ordinary meetings of the Board shall be as follows, that is to say:—

- (a) Reading and confirmation of minutes of last meeting;
- (b) Reading of correspondence (outward and inward) and taking such action (not inconsistent with these By-laws) as may be deemed expedient with respect thereto, and consideration of business arising from minutes of previous meeting;
- (c) Presentation of petitions or memorials and committee reports;
- (d) Consideration of tenders and ratification of contracts;
- (e) Consideration of business arising out of minutes;
- (f) Consideration of notices of motion;
- (g) Reception of notices of motion for next meeting.

No discussion upon minutes.

6. No discussion shall take place upon the minutes of proceedings, except as to their accuracy or for the rectification of a clerical error.

Petitions.

7. A petition shall only be presented by a member who makes himself responsible for the respectful nature of its language, and, so far as possible, acquaints himself before presentation with the subject to which it refers.

Business-paper.

8. The clerk shall provide every member with a paper, on which the business to be transacted at the meeting will be fairly set forth, including a list of all motions of which previous notice has been given.

Notice of motion.

9. A notice of motion must be in writing, signed by the member presenting it, and delivered to the chairman or clerk at least seven days before the day named for its consideration. Notices of motion must be placed on the orders of the day in succession, according to priority of reception.

No business without notice.

10. No business not entered in the business-paper for the day can be discussed or transacted, unless after suspension of the general rules in the manner provided by clause 47 of these By-laws.

When member giving notice is absent.

11. In the absence of a member who has given notice of a motion, any other member present may move or postpone the same. Otherwise the motion shall lapse.

Attendance-book.

12. Before the twentieth day of January in each year a list shall be prepared and published by the clerk showing the number of meetings held during the preceding year and the number of times that each member has attended; and for this purpose an attendance-book shall be kept, in which each member present at every meeting shall sign his name before the orders of the day are entered upon.

Call of the Board.

13. A member may, at an ordinary meeting of the Board, move for a call of the Board to consider any subject within the jurisdiction of the Board at the next or any subsequent meeting specified in the motion, and on such motion being passed, due notice must be given in the notice-paper of the day for which the call is made.

Penalty for non-attendance.

14. Any member not in attendance at the meeting for which a call has been made, or at any adjournment thereof, shall be liable to a penalty not exceeding twenty shillings. Provided that for reasonable cause the absence of such member may be excused by the chairman on motion passed by the Board.

ORDER OF DEBATE.

Chairman's decision to be final.

15. The chairman shall preserve order at all meetings, and his decisions, subject to the provisions of the next following clause of these By-laws, shall be final and binding upon every member.

Call to order.

16. (a) It is competent for any member to rise to order, on which the member speaking must at once resume his seat and remain silent until the point of order has been succinctly but briefly stated by the member who has risen.

(b) The chairman must thereupon decide the point of order or practice, and, if required, cite the rule applicable to the case without argument or comment.

(c) It is then competent for any member, not being the member who rose to order, to demand that the sense of the Board be taken on the point, when the decision of the majority shall prevail and be final and binding on every member.

Motion may be read during discussion.

17. At any time during a debate, but not so as to interrupt a speaker, a member may require the motion or question under discussion to be read for his information.

Speaker must rise and address chairman.

18. A member desiring to speak must rise and address the chairman, who shall at once call a speaker to order who addresses a member except through the chairman.

Claim to pre-audience.

19. When two or more members rise to speak simultaneously, the chairman shall forthwith decide which member is entitled to pre-audience, and any member who persists in standing or speaking in defiance of the chairman's decision shall be deemed to be disorderly.

Speaker must not digress.

20. A member having audience must not digress from the subject of debate.

A member may only speak once.

21. No member may speak more than once on any matter under discussion, unless as the mover of a motion in reply, or with the permission of the Board in explanation as a personal privilege. But this rule does not apply to meetings in committee.

Reply.

22. The mover of a motion on notice is entitled to a reply before the close of the discussion.

Formal questions.

23. A question may be put to the chairman by a member, but not so as to interrupt a speaker, or by one member to another through the chairman, but the chairman or a member is not bound to answer a frivolous, untimely, or offensively personal question, or a question of which notice has not been given, or which is asked at a meeting after the orders of the day have been entered upon.

Informal debates.

24. After disposal of the correspondence and before the orders of the day are entered upon, but at no other time, a member may move the adjournment of the Board for the purpose of calling attention to a matter of public interest, when debate may ensue, but an amendment cannot be submitted. Such motion need not be seconded.

Orders of the day defined.

25. For the purposes of these rules, the orders of the day shall be deemed to comprise business arising out of proceedings of the last previous meeting and motions of which due notice has been given on the business-paper.

Member may protest.

26. A member must not speak disrespectfully of any proceeding or decision of the Board, but he is entitled immediately after the adoption of a resolution, and before other business has intervened, to enter his protest against the decision, which protest must be recorded in the minute-book of the Board.

Respect for the chair.

27. Every member who takes his seat at the Board is assumed to recognise that it is his duty to show respect for the chair, and at all times to loyally assist the occupant thereof in maintaining order at the meeting.

Penalty for disorderly conduct.

28. A member who refuses to submit to the ruling of the chairman, or to the decision of the Board, at any meeting, or who interrupts the proceedings after being called to order, shall be liable to the penalty prescribed for a breach of these By-laws.

Rescission of motions.

29. No motion, the effect of which would be to rescind a resolution passed by the Board during the same divisional year, shall be received or passed unless a call of the Board has been made specially for that purpose; and no resolution so rescinded, or similar motion, shall during the same divisional year be again entertained by the Board.

Motions and amendments—withdrawn only by consent.

30. (a) A motion once placed on the business-paper, or moved at a meeting, cannot be withdrawn unless by consent of the Board.

How amendments are put.

(b) One or more amendments may be proposed on a motion before the Board. When more than one amendment is moved, the question shall be first put on the last amendment, then on the next in succession, and then on the original motion in the inverse order in which they were moved. Provided that when a motion or amendment relates to the fixing of salaries, rates, or other matters of finance, the lowest sum shall be put first, then the next lowest, and so on to the highest.

Must be seconded.

(c) A motion or amendment not seconded cannot be discussed by any member except the mover, nor be put by the chairman.

Affirmative and negative.

(d) In submitting a motion or amendment, the chairman must put the question first in the affirmative and then in the negative.

Amendment becomes substantive motion.

(e) When an amendment is carried, the motion as amended thereby becomes a substantive motion, upon which a further amendment may be moved before it is finally dealt with.

Motions or recommendations involving expenditure.

31. Every motion by a member, and every recommendation by the improvement or other committee, involving a charge exceeding ten pounds upon the divisional fund must specify the amount of such charge, carefully estimated upon the best information available; and no such motion or recommendation shall be adopted by the Board until this condition is complied with.

COMMITTEES.

Committees of the whole.

32. The members present at a meeting of the Board may, with or without notice, resolve themselves into a committee of the whole, when the rules governing the proceedings at Board meetings shall—except that a member may speak more than once, and a motion may be carried without previous notice—apply also to meetings of such committees.

Report may be amended.

33. The Board may adopt, reject, amend, or refer back for reconsideration the report of any committee; and when a report contains distinct and separate recommendations the Board may at the request of a member take the sense of the meeting upon them *seriatim*, and amend or expunge any recommendation as they think fit.

If involving taxation or expenditure must be followed by motion.

34. The report of a committee may be adopted by the Board on first presentation, but no recommendation of such report shall, if involving taxation or expenditure not previously authorised by the Board, be carried out except on motion after notice.

The standing committees.

35. There shall be two committees—namely, the finance committee, and the improvement committee, each composed of three members. The members representing each subdivision shall form an improvement sub-committee for the subdivision. The chairman of the Board shall be entitled to sit *ex officio* at all meetings of committees.

General functions of committees.

36. It is the duty of every committee to inquire into all matters that may from time to time be referred to it by the Board, and to make reports and recommendations thereupon as directed by the Board. A committee must not incur financial liabilities, or in any way commit the Board to any responsibility whatever, without express and specific authority conferred by the By-laws or by a resolution of the Board.

Quorum.

37. The quorum of a committee of three shall comprise two members.

Finance committee—accounts.

38. (a) Before being passed by the Board, all cash accounts, bills, vouchers, and monetary transactions must be submitted to the finance committee, and be signed by the chairman thereof as guaranteeing their correctness.

(b) It is the duty of the finance committee to present at the first ordinary meeting of the Board after the thirty-first day of January and July respectively in each year, a report showing the whole of the receipts and disbursements of cash on account of the division for the half-year then last past.

All cash to be banked.

(c) It is also the duty of the finance committee to cause all moneys received on account of the Division to be paid forthwith into such bank as the Board from time to time directs to the credit of the divisional fund of the Maroochy Divisional Board, and to see that no moneys are paid on account of the Board, except by cheques drawn upon such bank, signed by two members of the Board and countersigned by the clerk.

The improvement committee.

39. (a) All matters connected with making or repairing streets and roads, bridges, or other divisional works shall be submitted to the improvement committee, who shall report on the same to the Board. They shall also inquire into and report from time to time upon such improvements or repairs as they may think necessary.

Urgent works to amount of ten pounds.

(b) The improvement committee, together with the chairman of the Division, may in case of emergency, before reporting to the Board as aforesaid, undertake any urgent works involving expenditure not exceeding in the aggregate ten pounds sterling; but such works shall be reported on in due form to the next following meeting of the Board, and be recommended for approval by resolution moved at such meeting.

Urgent works to amount of ten pounds.

40. (a) The chairman of the Board, with one member of the improvement committee, may, in case of emergency, authorise the expenditure of a sum not exceeding ten pounds for any urgent divisional purpose; but shall in every case report the same for approval at the next following meeting of the Board.

Dangerous lands.

52. The Board may require the owner or occupier of land dangerous to the public to enclose the same with a sufficient fence to the satisfaction of the Board; and if such owner or occupier fails to enclose such land within a reasonable time, the Board may carry out the work, and the expense incurred by the Board in so doing shall be paid by such owner or occupier in addition to the penalty hereinafter prescribed.

Open-air fires.

53. Any person who burns shavings or other combustible materials on a road, or who in the open air lights a fire, or shall leave a fire alight, whereby any damage is caused to grass, timber, fences, or buildings, shall be liable to the penalty hereinafter prescribed.

Damaging Board's property.

54. Any person who damages a building, wall, fence, bridge, road, sewer, water-channel, jetty, pier, water-trough, pump, gates, or any fittings, conveniences, or other property under the control of the Board, or who soils or defiles the same or any part thereof, shall be liable to the penalty hereinafter prescribed, and in addition thereto shall pay the amount of the damage occasioned by such breach.

Approaches.

55. On the application in writing of any person resident within the Division, and the payment into the divisional fund of the cost of the necessary pipes, the Board may construct across the public water-table and footpath an approach for wheeled vehicles into the applicant's land to which access is required, or the work may be carried out by the applicant at his own cost, under the supervision of, and as directed by, the Board.

New roads.

56. The Board shall not assume the control of, or expend money from the divisional fund upon, any new road that may be hereafter surveyed through private land until a plan of the proposed road, and of the land on both sides thereof, has been referred to and favourably reported upon by the improvement committee.

OFFENCES AGAINST DECENCY AND ORDER.

57. Any person guilty of any of the following offences, that is to say:—

Indecency or obscenity.

(a) Indecently exposing the person, or bathing in the sea, or in any river or public water, or near a public thoroughfare, without a suitable bathing-dress sufficient to prevent the exposure of the person; or bathing in any public water or well set apart for the purpose of water supply; or fouling or defiling any such water or well, or allowing any matter detrimental to the public health to drain into any such water or well; or using obscene language; or committing any other offence against decency in a public place;

Disorderly house.

(b) Keeping a disorderly house, or gaming-house, or house of ill-fame; shall for every such offence be liable to a penalty not exceeding five pounds.

Tree planting on public roads—protection fences.

58. (1.) The Board may, on the application in writing of any owner of land situate within the Division, authorise an improvement committee to provide a protection fence for every tree planted by such owner in

the road fronting his property, at such cost to the applicant as the Board may from time to time prescribe, subject to the following conditions, namely:—

Trees to be approved.

- (a) Every tree so planted as aforesaid shall be first approved of by the improvement committee.

Description of trees.

- (b) Preference shall be given to trees which are both evergreen and umbrageous, and no tree which is either fruit-bearing or deciduous shall be planted on a road without special permission, in writing, from the improvement committee.

At least thirty feet apart.

- (c) Trees on roads shall be planted not less than thirty feet apart, and at a distance of not less than ten or more than twelve feet from the boundary road.

Covenant to protect.

- d) Before a protection fence is supplied by the committee for a tree planted on a public road under this By-law, the owner of the property nearest thereto shall agree that he will carefully preserve and protect such tree, and maintain in good order and condition the protection fence thereof, reasonable wear and tear alone excepted.

Penalty for damaging trees.

(2.) Any person who wilfully damages or removes a tree within a protection fence on a road, or, not being an authorised caretaker, removes from such tree a branch, leaf, flower, or who wilfully damages or removes such fence, shall be liable to a penalty not exceeding five pounds for each such offence.

OFFENSIVE TRADES.

Must be licensed.

59. No person shall, without a special license under the seal of the Board, establish or carry on within the Division any of the following trades—that is to say, the trade of blood-boiler, bone boiler, fellmonger, soap-boiler, tallow-melter, tripe-boiler, or any other noxious or offensive trade, business, or manufacture; and a person who engages in such trade within the Division without a license shall be liable to a penalty of five pounds in respect to the establishment thereof, and a penalty of forty shillings for every day on which the business is continued.

Notice of application.

60. A special license shall not be granted to a person until one month's previous notice of his intention to apply for a license has been published in one or more registered newspapers circulating in the Division; and any person shall, within twenty-one days after the date of such publication, be entitled to object, in writing, to the granting of a license; but the Board may, if it thinks fit, grant the license notwithstanding the objection.

License to be annual.

61. No special license shall be granted for a term exceeding one year, but may be renewed at the discretion of the Board on payment of the prescribed fee of two pounds two shillings for every year.

PROVISIONS AS TO HEALTH.

Epidemic must be reported.

62. When an infectious, contagious, or epidemic disease is known or reasonably suspected to exist in a house or dwelling, the occupier or head of the family living therein for the time being shall, within twenty-four hours thereafter, give notice thereof in writing to the Board; and any occupier or head of the family failing to give notice as aforesaid shall be liable to a penalty of five pounds, and to a further penalty of twenty shillings for every day during which such failure continues.

Chairman proceeds under Health Act.

63. On receipt of the notice the chairman shall forthwith take all the measures prescribed by the Health Act, or any amendment thereof, to prevent the spread of the disease.

Nuisances.

64. Any person who creates or causes a nuisance upon a road, reserve, or other public place, or who pollutes any stream, watercourse, public well or dam, or other public water within the Division, by—

Depositing carcasses.

- (a) Depositing thereon or casting therein the carcass of a dead animal or any refuse or offensive matter whatever;

Offensive drainage.

(b) Causing or permitting the drainage from a sewer, slaughter-house, closet, or stable to discharge thereon or therein; shall be liable to a penalty of five pounds for each such offence, and to a further penalty of two pounds for every day during which such nuisance or pollution continues.

Unclean premises.

65. On the complaint of any person resident within the Division that any premises are unclean or in a dangerous or unwholesome condition, the chairman shall forthwith cause the premises to be inspected; and if satisfied that the complaint is well founded, shall take the action prescribed under such conditions by the Health Act.

Pigsty.

66. No pigsty shall be kept so near to a dwelling, road, or boundary fence within the Division as to be a public nuisance; and a person so keeping a pigsty shall be liable to a penalty of two pounds for each offence, and to a further penalty of five shillings for every day during which the offence is continued.

Unclean slaughter-yards.

67. On the complaint of a person resident within the Division that any slaughter-yards or butcher's premises are not cleanly kept, or that diseased or unwholesome meat is exposed for sale therein, the chairman after satisfying himself that the complaint is well founded, shall forthwith proceed against the holder of the license under the provisions of the Health Act.

Burial of the dead.

68. A dead human body shall not be interred within the Division unless in a public burial-ground or cemetery duly established by law, and a person who inter a body in any other place shall be liable to the penalty hereinafter prescribed.

Meat to be covered.

69. A person who upon any unenclosed vehicle conveys, uncovered by a cloth, butcher's meat or any carcass intended for the food of man shall be liable to a penalty for a breach of these By-laws.

Notice to Commissioners.

70. (a) The inspector or other officer of the Board shall, on receiving information that diseased cattle are kept by any person, or are straying upon a road or reserve within the Division, forthwith send notice of the fact to the Commissioners for diseases in cattle in Brisbane.

Neglect to send notice.

71. An inspector or other officer of the Board who, having been informed that diseased cattle, within the meaning of these By-laws, are kept or are straying within the Division, fails to send notice to the commissioners as aforesaid, shall be liable to the penalty hereinafter prescribed.

If the carcass of any animal become or is likely to become a nuisance, the owner of such animal, after being notified, shall forthwith cause such carcass to be burned or effectually removed and disposed of, and on failure to do so within twenty-four hours after notice, shall be liable to a penalty not exceeding twenty pounds, and not less than two pounds. In the event of the owner not being known, or the carcass not being removed within twenty-four hours, the Board may remove or dispose of the same; the cost of such removal or disposal shall be paid out of the divisional fund.

Licensed gates.

72. An annual fee of ten shillings shall be paid to the Board for each license to erect a gate or fence across a public road, under the provisions of "The Divisional Boards Act of 1887."

73. Every person guilty of an offence against any of the foregoing By-laws shall, where no specific penalty is provided, be liable for every such offence to a penalty not exceeding twenty pounds.

Certificate.

The foregoing By-laws were passed by the Board of the Division of Maroochy, on the thirty-first day of December, 1896; the said By-laws were duly published, in accordance with the provisions of "The Divisional Boards Act of 1887," and were confirmed at a subsequent special meeting of the said Board on the eighteenth day of February, 1897.

SATURDAY, 10TH APRIL, 1897.

[No. 90.]

Chief Secretary's Office, Brisbane, 6th April, 1897.

HIS Excellency the Governor has been pleased to direct the publication, for general information, of the following Circular Despatch and its Enclosure received from the Right Honourable the Secretary of State for the Colonies.

HORACE TOZER.

(For previous papers on this subject, see *Government Gazette* of 28th September, 1895, page 730.)

THE SECRETARY OF STATE FOR THE COLONIES to THE GOVERNOR OF QUEENSLAND.

Circular.]

Downing Street, 23rd February, 1897.

SIR,—With reference to my Circular Despatches of the 15th July, 1895, and 18th February, 1896, I have the honour to transmit to you a copy of revised Regulations respecting Naval Cadets, recently issued by the Lords Commissioners of the Admiralty. It will be observed that the number of Colonial Nominations has been increased from four to six annually, that in future there will be three examinations in each year, viz., March, July, and December, and that the limits of age will be raised gradually at each successive examination until the minimum of 14 years, and the maximum of 15½ years are reached in January, 1898. Regulations Nos. 9, 10, and 16 are being further revised, and will not be applicable after the examination next July.

This year no Colonial candidate will be nominated for the March examination; and I shall be prepared to consider any application received by the end of April from Candidates wishing to be examined in July or December.

As regards 1898 and subsequent years, I have to request that applications may reach the Secretary of State not later than the 31st December of the year immediately preceding that for which the nomination is desired, in order that they may be considered in time for the March examination.

All applications should, as heretofore, be accompanied by the usual Form A duly filled up, and by the certificates of birth, conduct, and health required by the Regulations, and should contain an intimation as to the particular examination for which a nomination is desired.

I have, &c., J. CHAMBERLAIN.

[Enclosure.]

(UNDER REVISION.)

REGULATIONS RESPECTING NAVAL CADETS.

For the information of Candidates.

1. Appointments to Naval Cadetships will be made by limited competition, with the undermentioned exceptions:—
Six Cadetships given annually to sons of gentlemen in the Colonies, on the recommendation of the Secretary of State for the Colonies.

Service Cadetships, the total number of which is not to exceed seven in any one year. Service Cadets will be selected by the Board of Admiralty from (a) sons of officers of the Army, Navy, or Marines who have been killed in action, or who have been lost at sea on active service, or killed on duty, or who have died of wounds received in action or injuries received on duty within six months from the date of such action or injury, (b) sons of officers of the Navy who have performed long or distinguished service, and who hold or have held rank or relative rank on the Active List not lower than that of Commander. Not more than three Service Cadets will be nominated annually under Clause (b).

Applications for Service Cadetships should be addressed to the Military Secretary, Horse Guards, if the candidate is the son of an officer of the Army; to the Secretary of the Admiralty, if the candidate is the son of an officer of the Navy or Marines; and to the Military Secretary, India Office, if the candidate is the son of an officer of the Indian Army.

Colonial and Service Cadets will be entered on passing the test examination as specified in paragraphs 9 and 10, and will in all other respects be subject to these Regulations.

Candidates must be of pure European descent, and the sons either of natural born British subjects or of parents naturalised in the United Kingdom.

If any doubt arises upon this question, the burden of clear proof that he is qualified will rest upon the candidate himself.

The educational examination of all candidates will be conducted by the Civil Service Commissioners (address Cannon Row, Westminster), who will deal with all questions connected with such examination and will announce the results. A fee of one pound will be required from each candidate.

2. Except in special circumstances, not more than one-third of the number of candidates actually presenting themselves before the Civil Service Commissioners will be entered.

3. All nominations of candidates for Naval Cadetships are made by the First Lord, with the exception of a limited number which are at the disposal of individual members of the Board, and of the Secretaries to the Board of Admiralty.

A Flag Officer or a Commodore 1st Class appointed to the chief command of a station, or to a separate command, and a Captain, on first appointment as such to the command of a ship, will be allowed to nominate one candidate, provided the privilege is exercised within six months of appointment, and that the candidate is not less than 12 years of age when nominated. The examination of candidates will not take place until they are eligible by age under Clause 6.

No Captain will be entitled to nominate more than one candidate during the time he holds the rank of Captain, but a Flag Officer or a Commodore 1st Class may claim the privilege each time he is appointed to a command as above.

In the event of a candidate's nomination being cancelled before he has commenced the examination, the Officer who nominated him will be allowed to select another candidate for the same or following examination.

4. The nominations will be made three times a year, as soon as convenient after the Report of the last examination has been received from the Civil Service Commissioners.

5. The examinations will be held in London and at Portsmouth, in March, July, and December, about six weeks before the commencement of each term, and the appointments will date from the 15th January, 15th May, 15th September, following respectively, and the terms will commence as shown in Regulation 15.

6. The limits of age will be gradually increased as follows:—

Date of entry.	Lower limit of age.	Higher limit of age.
15th January, 1897	13½	15
15th May, 1897	13½	15
15th September, 1897... ..	13½	15½
15th January, 1898	14	15½

Candidates must be within these limits of age at the time of entry.

7. Every candidate must be in good health, and free from any physical defect of body, impediment of speech, defect of sight or hearing, and also from any predisposition to constitutional or hereditary disease or weakness of any kind, and in all respects well developed and active in proportion to his age. Before being examined by the Civil Service Commissioners he will be required to pass the medical examination according to the prescribed regulations, and must have been found physically fit for the Navy; rejection at such examination will finally exclude him from the Navy.

8. The candidate will be required to produce (1) a Registrar's certificate of the date of his birth, or a declaration thereof made before a magistrate (*a certificate of Baptism will not be accepted*); (2) a certificate of good conduct from the masters of the school or schools at which he may have been educated during the two previous years, or, if educated at home, from his tutor or the clergyman of the parish in which he resides; and (3) proofs of good health.

9. Candidates will be tested by examination in the following subjects:—

	Marks.
i. Arithmetic: including proportion, vulgar and decimal fractions	250
ii. Algebra: including fractions, simple equations and problems, and quadratic equations of one unknown quantity	200
iii. Geometry: Euclid, Book I., with exercises and questions	200
iv. English: handwriting, dictation, reading with intelligence, and composition	150
v. French: translating French into English, and English into French; grammatical questions, speaking, and dictation	250
(No dictionary will be allowed, but the equivalents of the less usual words in either language will be given.)	
vi. Scripture	100

Candidates will be required to obtain half marks in arithmetic, and 40 per cent. in each of the other subjects.

Candidates will be further examined in—

vii. Mathematics: harder questions in arithmetic, algebra, and geometry, as above defined	300
viii. Latin: translation, grammar, and prose composition	300
(No dictionary will be allowed, but the equivalents for the less usual words will be given.)	
ix. Geography: including the subjects treated of in Grove's Primer, and an elementary knowledge of the principal places in the British Isles and dependencies	150
x. *English History: a short selected period	150
xi. Drawing, freehand and simple rectangular model	100

The final order of merit will be determined by the sum of the marks obtained in the test and in the further examination.

10. Colonial and Service Cadets will be appointed on passing the test examination; they must, however, obtain not only the proportion of marks in arithmetic and the other test subjects required from the candidates who compete, but also an aggregate of not less than 660 marks in test subjects.

11. A candidate who passes the test examination, but does not succeed in the competition, will be entitled to compete at the next examination, provided he is within the limits of age at that time. A candidate who fails to pass the test will not be entitled to another trial, but he will be allowed to compete at the next examination if he receives a fresh nomination and is still within the limits of age.

12. A candidate who, owing to illness, fails to appear at the examination for which he has obtained his nomination may receive a second nomination, provided he is still within the limits of age.

13. For all Cadets entered under these regulations, the payment will be at the rate of seventy-five pounds per annum for the period in the "Britannia," to be paid every term in advance to the Cashier of the Bank of England, on receipt of claim from the Accountant-General of the Navy. But the Lords Commissioners of the Admiralty reserve the power of selecting, from among the Cadets entered at each examination, a number, not to exceed six, being sons of Officers of the Navy, Army, or Marines, or of Civil Officers under the Board of Admiralty, with respect to whom the annual payment will be forty pounds only. In this selection their Lordships will have regard solely to the pecuniary circumstances of the Cadet.

Applications for the Reduced Scale must be received at the Admiralty not later than 1st January, 15th April, and 1st September.

14. In addition to the annual payments mentioned in the foregoing paragraph, the parent or guardian will be charged with the personal expenses incurred by the Cadet for washing, repairing boots and clothes, hair-cutting, pocket-money, &c.

15. The period of training on board the "Britannia" will be four terms; there will be three terms in each year. The first term of each year will be approximately from 14th January to 14th April, the second from 5th May to 5th August, and from 16th September to 16th December.

The vacations will be four weeks at Christmas, three weeks at Easter, and six weeks at Midsummer.

16. (a) Examinations in Seamanship and Study will be held at the end of each term. Cadets who fail to obtain half marks in Seamanship will be "warned," and should they again fail to pass they will be liable to be discharged.

(b) Cadets who pass an unsatisfactory examination at the end of either of the first three terms will be "warned," and they will be liable to be discharged at the end of the following or any subsequent term should they again be reported as failing to obtain the proper number of marks.

The requisite standard of marks to be 40 per cent. in the Mathematical subjects, and also in the total.

(c) Cadets who fail at the final examination to obtain 45 per cent. in the Mathematical subjects, including the Theory of Navigation and Nautical Astronomy, and 40 per cent. in the Technical subjects, combined with Physics and French, will be ordered to be withdrawn.

(d) Cadets who at any time are reported to the Admiralty for unsatisfactory conduct will be "warned," and should they be again reported they will be liable to be discharged. Any Cadet, however, who is reported for unsatisfactory conduct during his final term will be liable to be discharged without being allowed to present himself at the examination for passing out of the "Britannia."

(e) Any Cadet who shall at any time appear to their Lordships to be unfit for the Naval Service, for any reason whatever, will be removed from the "Britannia," and it must be understood that this rule will apply to those who are considered unfit from insufficient physical development or weakness of constitution, although no actual organic disease may have been developed.

* "Gardiner's Outlines of English History" (Longman's) has been selected as the present text book for Examination in English History. The subject will be divided into periods, as follows:—

1st Period from the earliest times to A.D. 1603.

2nd Period from A.D. 1603 to 1820.

Either of these periods may be selected by Candidates at the Examinations in March and July, 1897.

17. It is to be distinctly understood that the period of training on board the "Britannia" is a time of probation, and the parent or guardian of every Cadet will be required to sign a declaration (on the admission of the Cadet to the "Britannia"), to the effect that he shall be immediately withdrawn on the receipt of an official intimation of his being considered unfit for the Navy.

18. Cadets will, on passing out of the "Britannia," rank according to the amount of sea time they obtain at their final examination, and those who obtain equal amounts of sea time will rank in the order of merit in which they pass out of the "Britannia."

19. The parent or guardian of every Cadet will be required to provide outfit under the regulations in force.

20. No pay will be allowed by Government to Cadets in the "Britannia." The pocket-money allowed to Cadets will be charged to the parents.

21. As only Cadets who are able to swim are permitted to use the boats belonging to H.M.S. "Britannia," the Lords Commissioners of the Admiralty desire to impress upon parents and guardians the importance of Cadets being taught to swim before they join the training ship, so as to enable them to obtain the full benefits of use of the boats.

By Command of their Lordships,

Admiralty, 16th January, 1897.

NOTICES TO MARINERS.

THE following Notices to Mariners are published for general information.

ROBERT PHILP.

No. 111.

WITH reference to the Government Notification, No. 41, of the 13th ultimo, information has been received from the Acting Consul-General for the Netherlands that the Lightship at Belawan (Deli) has been again placed in its old position.

A. H. BOLDERO, Captain, R.N., Acting Master Attendant, S.S. Master Attendant's Office, Singapore, 11th February, 1897.

No. 168.

GOVERNMENT OF CHINA.

No. 65 (SPECIAL).

CHINA SEA, SHANGHAI DISTRICT.

SOUTHERN ENTRANCE TO THE YANGTZE.

A SURVEY of a section of the Southern Entrance to the Yangtze, about 25 miles in length and extending from abreast of the Triplets to within two miles of the Tungsha Lightship, which was completed on the 15th instant, shows that the deepest and safest channel for vessels is now to the north-eastward of the Kiutoan Lightship instead of to the south-westward of her as formerly.

Directions.

To make the best direct courses: pass 2 cables to the south-westward of the Tungsha Lightship and then bring her to bear about S. 51½° E., true, and keep her so until the Kiutoan Lightship is sighted on the opposite bearing; continuing on the same course till the latter is about three miles distant, when House Island Beacon will bear N. E. Then keep a little to the north-eastward and pass the Kiutoan Lightship at a distance of from 1 to 1½ cables; hauling to the westward so as to bring the lightship to bear about S. 63° E., true, by the time she is one mile distant, and keeping her on that bearing till she is 6 miles distant, when the vessel will be a little to the north-eastward of mid-channel, with the Kiutoan Small Beacon bearing about W. by S. ½ S., from which position to the Woosung Outer Bar the present British Admiralty Chart No. 1602 may be followed.

The least depths of water, at low water of spring tides, found on the track above indicated were 21 feet at 2¼ miles inside the Tungsha Lightship, then from 22 to 28 feet till abreast of House Island Beacon, decreasing to 18 feet in the vicinity of the Kiutoan Lightship, where a bar, 2 miles in width between the 18 feet contours, has been formed by the junction of the former Middle Ground with Blockhouse Shoal. After passing this bar, the water gradually deepens to 5 fathoms at 4 miles inside the Kiutoan Lightship.

Caution.

The Kiutoan Lightship has sustained numerous collisions through vessels—most of them steamers—undertaking to cross her bow without making due allowance for the strength of the tide; and those on board of her complain that their lives are frequently imperilled through steamers passing dangerously near when there is nothing to prevent them keeping a safe distance from the Lightship.

The warning given in Notice to Mariners No. 55 (Special) that vessels should not pass between the Tungsha Lightship and the South-east Spit is repeated. This locality has not yet been re-surveyed, but

a shoal patch has been found there with a depth of only 6 feet over it at low water where the latest chart shows 3½ fathoms.

Aids to Navigation.

The positions of the two Lightships and of the Middle Ground Lower and South-east Knoll Buoys remain unchanged.

The Middle Ground Upper Buoy will shortly be removed, and a conical red buoy surmounted by a black inverted frustum cage, to be known as the Blockhouse Shoal Buoy, will be moored on the edge of the Shoal, between the South-east Knoll Buoy and the Kiutoan Lightship.

CHINA SEA, SHANGHAI DISTRICT.

NORTH CHANNEL ENTRANCE TO THE YANGTZE.

NOTICE is hereby given that systematic sweeping operations having been carried on in the North or Shaweishan Channel for a period of four months, this entrance to the Yangtze is now considered free of all artificial obstructions to navigation, and the following mentioned buoys have been laid down to mark the channel:—

Drinkwater Point Buoy:—A conical, 10-foot, red and black horizontally striped fairway buoy, surmounted by a black spherical cage. From the buoy Shaweishan Lighthouse bears N. 86° E., distant 12¼ miles.

Ch'i-Yao Bank Buoy:—A conical, 6-foot, red buoy, with a black spherical cage, moored off the south-eastern elbow of Ch'i-yao Bank, to mark the starboard side of the Channel entering from sea. From the buoy Drinkwater Point Surveying Beacon bears N. distant 2¼ miles.

Middle Island Buoy:—A conical, 6-foot, red and black horizontally striped fairway buoy, with a black inverted frustum cage, moored in position to guide vessels clear of the bank, which lies to the northward of Middle and Blockhouse Islands. From the buoy Middle Island Surveying Beacon bears S. 34° W. distant 4 miles.

Tsungming Bank Buoy:—A conical, 6-foot, red buoy, with a black spherical cage, moored off the eastern end of Tsungming Bank, to mark the starboard side of the Channel entering. From the buoy Middle Island Surveying Beacon bears S. 5¼° E. distant 3 miles.

Directions.

At the present time and with the buoys in the positions above described, a vessel may round the western end of Bush Island at about 2 cables and steer to make an E. by N. ¼ N. course till abreast of Tsungming Bank Buoy, after which she may steer to make direct courses from buoy to buoy, passing each according to its colouring. The narrowest part of the Channel and the locality where it appears most liable to change is between the Tsungming Bank and Bush and Middle Islands and their outlying banks, where, for a length of 5 miles, it varies in width from ¼ to ¾ of a mile between the 18-foot contours.

All bearings are magnetic, and distances in nautical miles.
